

As part of the development of its activities, Optim'EASE is looking for new talents to complement its team.

Optim'EASE is a new company active in Operational excellence and is currently looking for:

### **Analyst**

#### **Your next challenges:**

- Participate in process reengineering and operations reviews, restructuring of operations
- Analyse financial and operational key figures to assess current performance and understand client's organisation
- Translate organisational and operational efficiency assessments into implementable business requirements and perform gap analyses based upon the requirements in order to define "To Be" organisation and "To Be" processes/solutions
- Create and implement Dashboards and KPIs to measure improvements and ensure payback to our clients
- Manage and/or support implementation projects by identifying, designing and implementing creative business solutions. Then develop cohesive conclusions and participate in the status report writing and presentation

#### **Your skills:**

- Hold a master's degree in Engineering, Business Administration, Supply Chain or a related field
- Have up to 1 year of experience in project management: strategy projects, re-organisation projects, efficiency improvement projects.
- Show excellent analytical capabilities and a pragmatic/hands-on mind-set
- Have strong problem solving and troubleshooting skills with the ability to exercise mature judgment
- Demonstrate exceptional communication skills
- Be a self-starter, keen to learn and build expertise
- Fluency in **French and English** (read, written and spoken) is **MANDATORY** (German and/or Luxembourgish is an asset)

If this opportunity is the challenge you are looking for, please forward your application in the strictest confidentiality to [contact@ease.lu](mailto:contact@ease.lu).

All applicants must be eligible for, and have valid documents to work in the EU.
